

17HCONV

All to HDMI Scaler and HD Multi media player.

This new all Video to HDMI Scaler & Switcher is capable of switching between 8 sources, scaling any one of the sources(except USB) up to HDMI. The output resolution is also selectable between 720P and 1080P. It converts signal from DVD player, Blu-ray DVD, DVR, game console, STB, PC, etc. to HDMI.

It is true HDMI and HDCP compliant. Additional USB input also allows the content of your HDD, USB disk etc. to display on your HDTV directly.

- Inputs: 2 x HDMI, 2 x USB, 1 x DVI-D, 1 x AV, 1 x YPbPr, 1 x VGA
- Output: 1 x HDMI, 1 x Coaxial
- Up-scales any of the SD sources to HDMI output 720P or 1080P
- Display ratio, 4:3,16:9, and 16:10 display modes
- Select input source by either "Input" button on front panel or remote control.
- Supports all kinds of USB storage devices, such as USB disk, USB-HDD, MP3, USB card reader, etc. and then make sure the images, audio & video are read, decoded and played.
- Exclusive Colour Eye Technology optimizes the conversion process, the converted picture is much more vivid and clear, no jitter and trailing even for fast-moving video.
- Unique Intelligent User Interface, benefit from OSD, you can operate the converter easier and more conveniently
- 3D compensation is applied to make the HDMI output picture more stable and get rid of shake and flicker.
- Power Supply: 12V@1A
