

Quality ProquipDigital HDMI Leads Genuine 4K@60Hz. Includes Premium Certified Cables

Models:

06HDP0.5V2.0

06HDO1.0V2.0

*06HDP2.0V2PC

*06HDP3.0VPC

*06HDP5.0VPC

06HDP10V2.0

*Independently tested by an Approved Testing Centre Certified and Registered with HDMI Licencing.

Our range of ProquipDigital HDMI leads just got better.

Our leads are compliant with the Premium HDMI Cable Certification Program.

Look for the authentication label on the packaging.

Great product, great styling and genuine proven performance.

High Speed

The transfer rate can reach 18Gbps, the transfer rate is an important performance indicator.

The higher the rate, the faster the data transfer will be.

24K Gold Plated Connector

By using 24K Gold Plated Connectors, the transmission will be more stable and the connector will be very wear resistant.

Each connector must pass a strict connection test of 5000 times connect and disconnect without diminished performance.

99.9% Oxygen Free Copper

OFC is the most suitable HDMI conductor material. It is an important factor for data transfer rates.

Each conductor must undergo an ISO9001 rigorous screening process.

Multi Layer Shielding

To comply with the HDMI Association technical requirements, the multi layer shielding must consist of aluminum foil, foam PE and metal braiding so that the signal can be stable in a variety of environments and will not be affected by external signals to ensure the viewing experience.
