

1.8M Metal Roof Mount FB607314

The Hills Antenna 1.8m Metal Roof Mount FB607314 is a solid and flexible option for attaching to various metal roofs. The baseplate is designed with multiple mounting holes to fit different roof profiles securely. The mast is 1.8 meters long and made from pre-galvanized steel, with a 44.5mm outer diameter and 1.2mm wall thickness. This makes it strong and durable, and it pairs well with the Starlink Adaptor FB607313 for GEN 3 V4 dishes.

The length of the mast helps protect the dish by reducing heat reflection from the roof, which is great for dealing with Australia's intense sun. To ensure a stable and secure installation, the mount comes with two telescopic stays. Cyclone washers and rubber seals are included to create a tight seal and prevent possible water ingress. Overall, this mount provides a reliable setup, handling tough conditions and offering good protection for your equipment.

Material Specifications

Qty	Item	Construction	Dimensions
1	Mast	Pre-Gal Steel	1800mm x 44.5mm x 1.2mm
2	Telescopic Stays (Outer)	Pre-Gal Steel	1060mm x 25mm x 1.2mm
2	Telescopic Stays (Inner)	Pre-Gal Steel	1060mm x 20.5mm x 1.2mm
1	Base	Mild Steel HDG	400mm x 52mm x 2.5mm
Accessory Kit			
2	Cyclone Washer	Mild Steel Dacromet Coated	6.5mm x 40mm x 1.0mm
2	Hexagon Head Bolt	Mild Steel Blue Zinc	M8 x 65mm
4	Washer	Mild Steel Blue Zinc	8mm x 18mm x 1.2mm
2	Flange Nut	Mild Steel Blue Zinc	M8
2	Hexagon Screw	Mild Steel Dacromet Coated	4.8mm x 16mm
2	Rubber Washer	TPE (Thermoplastic Elastomers)	5mm x 37mm x 2.5mm
4	Hexagon Self Tapping Screw	Mild Steel Dacromet Coated	6.4mm x 65mm
