

FB607319

DRAWBAR MOUNT

The Hills Antenna Drawbar Mount is a tough and flexible solution for mounting your antenna onto your caravan. Designed to fit 50mm drawbars (the most common standard for caravans and trailers), it easily attaches to the caravan's drawbar, A-frame, or rear bar, without the need to drill any holes. Simply tighten the two M8 locking bolts, and the Drawbar Mount will stay securely in place.

The Drawbar Mount has been specifically designed for ease of use. Not only can it be easily installed or removed from the caravans drawbar with the locking bolts, but it also features four star knob nuts for quick hand tightening when securing a mast between the V-Blocks.

Made with a Dacromet finish, the Hills Antenna FB607319 Drawbar Mount has excellent corrosion protection and rust resistance, built to handle Australia's harshest weather, come rain, hail or shine.

The Drawbar Mount is also perfect to pair with a Hills Antenna FB607328 Two-Section Aluminium Mast. Allowing you to safely set up your antenna – whether it's a Starlink dish, VAST satellite dish, or TV antenna – without the fear of potential damage.

Features:

- Built tough, specifically designed to stand up to the toughest of Australian weather
- Suits a pole diameter: 25-50mm
- Dacromet coating for rust and corrosion resistance
- Easy and fast install and remove: No drilling required
- Fits most 50mm Drawbars no matter the caravan
- Dimensions: 175(W) x 125(H) x 60(D) mm
