Self-Lock F-Type Connector
(RG6 Dual & Tri Shield)

12B6FSLD

FEATURES:

- Tool-free installation — simply strip the cable and push to lock
- Self-locking teeth-ring ensures strong grip and prevents cable removal
- Compact, lightweight design (<23mm) for easy use in tight spaces
- Durable nickel-plated brass body for superior corrosion resistance and conductivity
- 11mm (7/16") hex nut offers firm mechanical connection
- Low signal loss and excellent RF performance up to 3GHz
- Compatible with RG6 Dual and Tri Shield cables
- All-metal body enhances strength and durability
- Quick, reliable connection — perfect for professionals and DIY users alike
- Indoor use only
